SUMMARY

Junior Software Developer with hands-on experience in React.js, ASP.NET (C#), Java, Python, and AWS S3. Experienced in building responsive web applications, integrating APIs, managing cloud file storage, and working in Agile teams. Previous experience in RPA development and software testing. Seeking opportunities in frontend, backend, or full-stack development.

TECHNICAL SKILLS

- **Frontend :** React.js, HTML, CSS, JavaScript
- **Backend & APIs :** ASP.NET Web API, C#, Java, REST APIs, JSON, Postman
- **Databases :** MySQL, PostgreSQL, MongoDB, SQL Queries
- **Cloud :** AWS S3 (File management)
- **Testing :** Selenium WebDriver, Manual Testing, API Testing
- **Tools :** Git/GitHub, JIRA, Excel, Jupyter Notebook

WORK EXPERIENCE

Jr. Associate Technology – AUMLabs │ Nov 2025 – Present

- Working on the Vedbhoomi Web Application using React.js (frontend) and ASP.NET (C#) (backend).
- Developing UI components, forms, and responsive pages.
- Supporting backend development: API handling, data processing, and logic updates.
- Managing file assets using AWS S3 (uploading, retrieving, organizing).
- Working in Agile environment with JIRA for task tracking and issue resolution.
- Debugging UI and backend issues to enhance overall web application functionality.

RPA Developer Intern – AutomationEdge │ Apr 2025 – Sep 2025

- Worked on a live healthcare automation project (Ohioans Medicaid Portal Automation) used for real-time insurance eligibility checks.
- Developed 5+ automation workflows to reduce manual effort for BFSI & Healthcare use cases.
- Debugged workflows and collaborated with developers to improve reliability and performance.
- Tested and validated Process Studio plugins for accuracy, reliability, and performance.
- Reported defects and collaborated with the development team to enhance plugin stability.

PROJECTS

Vedbhoomi Web Application – AUMLabs │ React.js, ASP.NET (C#), AWS S3

- Developed frontend UI components and responsive pages.
- Integrated APIs and implemented backend logic for data processing.
- Managed cloud file assets using AWS S3 for efficient storage and retrieval.

Ohioans Medicaid Portal Automation – AutomationEdge │ AutomationEdge, SQL

- Developed an AutomationEdge workflow to check insurance eligibility on the Ohioans Medicaid portal.
- Implemented eligibility validation logic to ensure accurate insurance status verification.
- Ensured workflow accuracy, reliability, and compliance with healthcare process standards..

Netflix Data Analysis – Unified Mentor │ Python, Pandas, NumPy, Tableau

- Cleaned and preprocessed Netflix user ratings, viewing history, and content metadata using Python (Pandas, NumPy).
- Conducted EDA to identify top-rated movies/TV shows, most-watched genres, and regional content preferences.
- Created interactive dashboards with Tableau and Matplotlib to communicate insights effectively.

EDUCATION

Master of Computer Science │ K J Somaiya College of Arts and Commerce │ Jun 2022 – Jul 2024

Bachelor of Computer Science │ K J Somaiya College of Arts and Commerce │ Jun 2019 – Apr 2022

CERTIFICATIONS

Data Analyst Internship - Unified Mentor

Data Analyst Training - Null Class

Automation Edge Foundation - AutomationEdge
